Assignment 4

■ Within "student_health_3.csv", we want to classify Class 1 (Grade 1~3), and Class 2 (Grade 4~6). Please train a classification model with blood pressure (Lower, Upper), Height, and Weight and predict the class with input [80, 100, 140, 60] corresponding to blood pressure (Lower, Upper), Height, and Weight.(6%)

→ You can select any model within this week class.
